WORK EXPERIENCE

M.A Technology Inc.

(2022 Jan to Present)

Position: Full Stack Web Application Developer
Junior Associate (1-4 yrs experience)
Specialization: IT/Computer - Software Development
Industry: Manufacturing / Production
Nature of Work: I develop in-house web applications and dashboards that are used by different departments to digitalize their current processes, lessen the use of Excel files for tracking records and reports, and allow the users to work smoothly and proficiently.

- Key Responsibilities:**
- Collaborated with other departments and developers to implement the desired features and design into a functional and user-friendly web application.
 - Utilized HTML, CSS, JavaScript, JQuery, NEXT.js, and Tailwind to build the front-end of the website.
 - Utilized PHP Laravel and Python Flask for the back-end of the web application.
 - Implemented responsive design principles to ensure the web apps look good on all devices, from desktop computers to mobile phones.
 - Optimized web app performance for fast loading times.

- Achievements:**
- Successfully launched the web app on schedule.
 - Received positive feedback from both the users and the company president, praising the web app's functionality, design, and ease of use.
